Hello, cat lovers. We have a sweet and very playful 2 year old cat we have to get a new home right away. We just got her, but did not know that our son is allergic to her. She is very healthy, and has her shots and is chipped. She loves to be held and purrs a lot. She will come with the paper work, tag, new bag of food, and big bag of litter (the food and litter I just opened last night). She does great with kids, cats, and dogs. (we have all of these.) All I am asking is \$40 (cash), to recover the adoption fee, and food and litter. If you are SERIOUS about coming to get her, let me know. I really hate to re-home her like this, but my son's health is.
