I am dealing with a Sociopath. We began dating when I was 12, he was 23. He always controlled me, there was a lot of mental and sexual abuse. he forced me to marry him. We divorced last year but he has since made and continues to make my life miserable. I left because he sexually assaulted me, I had no place to go so I left our daughter with him and didn't want to have our daughter sleep in a car with me during winter. So he has primary residence but we have joint custody. He has made life impossible. I had to get a lawyer just to be able to see our daughter. its as if he knows how to manipulate everyone he comes in contact with. My female lawyer has withdrawn herself from the case because she could not deal with his complete disregard for women. She advised that I get an aggressive male lawyer preferably someone who has experience dealing with a Sociopath. the problem is that my ex husband cost me my last job and now I only have a part time job. so I don't make much money. I'm so drained and I feel mentally and spiritually defeated. I don't know where to turn. I love my daughter but he has been killing me with stress and anxiety he has even told me through email that I won't be happy until I give him sole custody of our daughter. I need.
