## 5/5 stars TV Mounting Verified Review

Excellent quick work. They made sure I understood all my options before installing and gave some good advice along the way. The price was very reasonable. I highly recommend.

## 5/5 stars TV Mounting Verified Review

Showed up on time (even 5 minutes early!) and got the job done quickly and professionally. There were some oddities about my house that made installation slightly challenging but there was no problem adjusting to meet the demands of the building structure.

Mounting Review  
 I was shown how to do this... Mike, the technician, all of which worked very well. Mike answered all questions I had and the finished product turned out perfect! He even went out of his way to help me mount a media component shelf on the wall under the TV. I am extremely satisfied with the finished product, the cost of the service was much less than other installers quoted me. Highly recommended.
