Musicians: have you tried other services that promised to shop your music, get you heard, and get you signed?

Are you trying to make it in the music business but struggling to build a "real" fan-base, understand social media, brand yourself, market & promote your music, build a team, book shows, record & release professional music, get heard, and make a living doing what you love (music)?

We can help you.

CJG Innovative is a Management and Pre-Management support firm with the experience, ability, and resources to help you overcome the common challenges that musicians face. We're a team of experienced music pros who specialize in guiding Independent & Emerging Artists and Musicians. Our team has over 80 years of collective experience in the Music Industry, including working at major labels like Atlantic and Capitol Records; recording for Major and Indie labels; charting our own songs on Billboard; countless performances here and abroad, including prestigious festivals & concert halls, music clubs and beer-soaked dives; producing, recording, mixing music; branding; teaching; fundraising, Grammy nominations and more.

It's up to YOU - the "artist" - to take control of your music career and destiny. Labels, management, and agents don't discover artists anymore. Artists today must create professional music, learn the business, and execute a strategy to build a fan base and buzz, all on their own.

Here's a REAL opportunity to get expert help. If you're interested in learning more, please visit [cjginnovative.com](http://www.cjginnovative.com) or <http://www.cjginnovative.com/>
