Soooo, what you are saying -that you want to kill "white people"? Soooo does that mean that every time that I see a black on the street in the store or driving next to me that I should have one finger on the trigger? Sooooo be it. Do you have any idea just how many people in Maine carry a gun? And we will look out for each other. Dont even think about hurting one of our Police men. I'll be watching you.<https://youtu.be>
