Are you a gig programmer or developer? Have extensive experience developing startup front end or back end? Do you have experience with IT, Networking, and managing extensive databases. If this sounds like you, then you are exactly the person we are looking for. We currently have thousands of jobs and gigs available on our gigs startup and need qualified programmers and developers such as yourself to match up and start bidding on these gigs. Projects and gigs ranging from \$1000-\$30,000 per project. Anywhere from creating iPhone / Android Apps to developing the front end or backend of startups. Working remote is no problem. Simply match up to our startup, create your profile, and be paired and matched with thousands of programming, match, and developing jobs all over the United States. Never has it been easier to find a programming job, and now all that is possible with our gigs startup. : [freelancegigs.work](http://freelancegigs.work)
