Recently I took in two puppies to get them out of a bad living situation. They had no shots, infested with fleas, and losing their hair. They are now up to date on their shots with shot records, fleas are all gone and taken hair of, and their hair is starting to grow back in and they are very healthy. That being said. . . .  
... Meet Odon ?

Odon is a six month old un-neutered cocker spaniel/ Jack Russell Terrier mix. He is extremely friendly and loves to cuddle and also loves having play dates with other animals and children. He LOVES to play "boxing" with you. He used to be an escape artist and dart once the door is open but he has gotten much better since we started working with him, and he generally just stays around where his owner is standing. He is house trained. In his previous home he was allowed to just roam around and do whatever he wanted. Since I have taken him in we have also worked on crate training for when people are gone for extended periods of time (8 hours.) He normally doesn't whine in a crate as long as he has a blanket, toys, and/or rawhides.

He would do best in a home with a fenced in yard as he does have a lot of energy, and loves to play fetch. He does well with other cats and dogs of all sizes and would do well with another companion in the home.

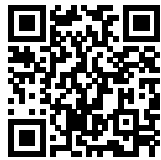

Odon will come with all of his belongings. Food, treats, toys, bowls, leashes, harness, shot records, and everything else that I have recently bought for him. There is a rehoming fee of \$200 to cover him and all of the things I had bought in the last week since purchasing him. I would like to find him a home as soon as possible that way there is not an issue with him transitioning and adjusting. This will not be a first come first served situation as I know his previous life was not the best one and I would not want him to have to

go through anything similar to that again.
