Selling a brand new upgraded Amazon Fire TV Stick. It's loaded with Kodi entertainment center for your free streaming enjoyment. This is not your normal Fire TV Stick... Everything on it is FREE, NO SUBSCRIPTIONS OR MONTHLY FEES!

Watch any movie or TV show you want because Kodi has them all, live cable TV, PPV UFC WWE fights, MLB NBA NFL games, Korean dramas, adult entertainment, etc. All for free. No fees or subscriptions ever. I have canceled my Oceanic cable service along with my Netflix, Hulu, and HBO accounts because of this. I'm saving over \$150 each month! The stick is also portable and hotel WiFi capable, take it with you to a friend's or even on vacation!

All you need is a HDMI capable TV and fast and stable WiFi. Just plug the stick in, setup your WiFi, and you're off! Easy to setup and even easier to use! All programming (movies, TV shows, sports content, etc.) update automatically with no work on your part. I also include a helpful guide to get you started and a maintenance tool to keep you up and running. I have over 75+ satisfied Craigslist customers who always return to buy more for their friends. Thank you guys for your support!

Don't pay \$250+ for all the other boxes you see Craigslist, I have experience with most of them and can tell you honestly this stick does everything the boxes do and much more... for way less money. All of the other boxes run the same Kodi program as this Fire TV Stick but mine is customized.
