

---

Benz Turbo Diesel engine! This powerful German technology propels your new motorhome on the superior Mercedes Benz Sprinter 3500 chassis. This model 2150 motorhome realizes exceptional fuel economy!

Everything about this coach will amaze you including the amount of space and the efficient use of that space! The living area is wide open and easy to navigate. There is massive rear storage compartment. There is ample storage throughout the coach including the convenient under-seat and door compartments as well as nice little storage nooks everywhere you look, especially in the cockpit area!

You will feel confident behind the wheel of this wonderful motorhome! The drive quality and handling are truly outstanding. It drives better than my SUV! The seats and steering wheel are infinitely and easily adjustable. There is an abundance of leg room, you will never be uncomfortable behind the wheel. Acceleration and power are very good while still maintaining the legendary fuel economy this Mercedes Diesel is known for. This is one of the quietest motorhomes I have ever driven! You will be absolutely delighted behind the wheel, driving this beautiful compact motorhome is completely stress-free!

The interior and exterior features are exceptional. On the outside you will find colored Gel Coat fiberglass with stylish graphics, power patio awning, slide topper, rear ladder, trailer hitch. Inside you will find all the conveniences of home including a full bathroom, rear and cabover beds, air conditioning, furnace, 24" LCD & DVD player and full kitchen including oven, microwave/convection oven, refrigerator and fold-away counter extension. This wonderful slide out floorplan also features a convertible leather jackknife sofa with 2 removable tables, color rear vision camera, MCD window shades and much more!
