We have the MUAs, Wardrobe, Hair Stylist, Backdrops and Studio but we're missing a few models with a "The Look". It's hard to describe the look we need so we encourage all to reply. Whether you have been modeling since you were 2 or haven't taken a professional photo ever, we're interested explaining this casting to whoever responds. We attached some examples of the types of poses we will be shooting. These are not our photos but rather photos found on various websites. If you would like to have a portfolio with similar images, images that are extraordinary not just ordinary, don't hesitate to reply. All we ask is that you reply with TWO PHOTOS & THE INFORMATION BELOW.
