I am re-homing our 2 male dachshunds. I am currently undergoing treatment every 3 weeks and it seems every time I do I get sick and end back up in the hospital and it is so unfair to our dogs. They are 4 and 5 years old. They need to stay together. They come with their crate (I crate at night or when I go away) their food (Iams weight management), leashes, collars, Flea meds, food dishes, and toys. They do have fleas as I have been giving them flea dips and currently using Frontline Plus on them. They aren't due for more flea meds until the 6th of every month. Asking re-homing fee of \$250 Obo for the both of them to ensure that they go to good homes. They don't do well with cats or other dogs. They love going on walks. They are great with kids. They do not sleep on our beds, but do lay on our couches. They do not get table scraps despite they do whine for them. They have been well cared for and am seeking a home that will treat them as I do. Feel free to ask any questions that you may.
