If you see this man, don't even open the door! He's a convicted con. I have a Court Order to prove it. This is his mugshot. He's been ripping people off in Twin Cities are & other places for years. He'll take your money for a house project and will never do anything. You'll never see him again. He stole \$2,500 from me, money I got from selling a family heirloom of over 100 years. He owes money to many people through Civil Courts (see pics). I doubt he's licensed to do any work. He's a con, period. He has a long history of court record, along with his wife Robin. I got this info online, It IS A PUBLIC RECORD. I'm posting this ad to warn other people. His name is Gerard Hernandez. He goes by Jerry. Last known address in Wyoming, MN or possibly North Branch. It's hard to keep track of him -- he's been evicted from every place he's lived. He also has a loser son that keeps deleting these ads. Contact me if you wish to receive detailed list of all civil & criminal cases.

UPDATE: I've had several people contact me, thanking me for the heads up, unfortunately a few of them saw this post too late & were ripped off just like me. He's still getting away with it. He has to be stopped.
