

Females rats (Waterville)

Location **Maine**
<https://www.genclassifieds.com/x-677523-z>

I have 7 in a cage, two bite and five are friendly enough however, I no longer have time for them. They are not getting out or having enough interaction.

I won't place demands on the new owner saying not for food, if that's your prerogative so be it, I don't want to know. Rats are.
