The father is full blooded Spynx and the mother I'm not sure, so I say half breed .
I have two half Spynx Cats that are brother and sister. They are one years old.
Female is spaded boy is not.
They are very lovable.
They like to climb on high places, including tables, counter tops, cabinets.
They don't like taking bathes or being cleaned. it's little bit of a hassle.
They need their eyes and ears cleaned maybe once a week or two.
Right now they do need flea shots.
They are indoor cats but sometimes they try to escape out the door when you open it.
They are good with my mini pin so not sure about big dogs. They don't bother the dog.

Have to take both. Will not separate. Again have to take both cats will not separate them.

If you want them make sure you really want them.

Only to a good home.

will delete ad when they are.
