

# Need Christian Crew for Documentary on churches in America (Whitemarsh md)

Location **Maryland**  
<https://www.genclassifieds.com/x-677614-z>

Hello my name is Tim. I currently live in Whitemarsh, Md. I am currently looking for a crew to put together to raise money and film a Documentary about Churches in America. I want to go from church to church in America and film the body of Christ, to show just what is the true backbone of America is and just maybe change many people's view on the church and just what we really believe as Christians. I want to show just what our Brothers and Sisters in the Lord really believe and are doing for the KINGDOM OF CHRIST thus change the nay sayers out there that believe Gods people are just a bunch of "BIBLE THUMPERS" . Also hopefully we can bring unity to the body of Christ by bringing the denominational walls down and unite the church once again as on the day of pentecost. My goal is to take the funds from this documentary and of course pay those who help in this project, and then use the rest for the next big Ideal for Christ. SO IF THIS SOUNDS Like YOU email me, and lets give America and the world a different perspective of what Gods kingdom really looks like!

We are looking for the following experienced people in these areas:

- camera man
- microphone holders
- professional video editors
- Documentary writers
- staff to contact churches to set up shooting dates and times
- drivers to travel to location shoots
- PR person to promote documentary to churches and television spots (i.e 700 club, TBN, Church Channel, Word network and also secular networks)

All inquires for these positions will be on a 1st phone interview with myself (Tim) and then once i'm interested, I will arrange for a in person interview.

\*This project will first start with putting together a video that we will send to churches to raise finances for this project where we will give a full account of finances will be used. Then we will determine a date to start project. This project will be a documentary on the road to the next edit. Then we will put together a second trailer to promote this project. Lastly, from start to finish, we will let you know what we want you to do and never over expect from us. We want you find your self interested in this project.

Thank you,  
 God  
 77614-z

Hope to hear from you soon
