We are a married couple living in New York State seeking a child between the ages of 0-3 to adopt. We've been married for almost 10 years. I'm a former early childhood educator and my husband is a free lance web and social media consultant. We don't have any children of our own and your child will be given the best of education, healthcare and love a wonderful family. This can be an open adoption where you will be given visits, phone calls, and updates. Serious inquiries only. Thank.
