I'm wanting to trade for a sports bike or sell for \$1600. It has aftermarket plastics and a gold series fatty exhaust. I put a new front tire and tube on it and it has an aftermarket seat. The motor is still being broken in from being rebuilt. My reason for getting rid of it is that there's not many places close to take it and ride it so I'd like to get a sports bike to go ride with my friends. I've put a lot of money and hours into fixing it up. It runs great and it's pretty fast for being a 125. \$1600 cash or trades for a croch rocket I'm not interested in anything else..
