I Have ONE MALE and ONE FEMALE. Ready this weekend. One is Seal Point (male) and One is Silver Point (female).

Pics are of my past litter that looks like the two listed. Just having problems with my camera and couldn't get pics to upload.

Email me for details. I will give the first shots, and wormer, Vet heath check, litter train, and make sure it's eating well on it's own before placement.

Re-homing charges.
