Homeowners, are you tired of worrying about being a landlord or whether or not a property management company is truly looking for the best tenants for your home? As a licensed Broker and investor myself, we understand the concerns of property owners when it comes to their biggest asset. With over 10 years in the real estate industry we have acquired good working relationships with licensed plumbers, electricians, HVAC and handymen. Our contacts are your gain; by providing these contractors with continuous work our repair fees are less that most. Our management fees are competitive and fair. We utilize online marketing greatly and generally have a home leased within 2 weeks to qualified tenants and we have Spanish speaking employees. Background and reference checks are a must and you as the owner always have the last say.

Please call or email for more information. Visit our website for rates.
