\$ecurity \$ystem \$ales

If you're tired of the summer program companies that promise the world but can't deliver, we are looking for an energetic technology minded outside sales person. We pay within days from date of closing, not weeks. If you have the desire to grow with us and have at least a basic understanding of today's available technology and are outgoing, friendly, and have the ability to sell, then you'll succeed. You'll need a reliable means of transportation, a smart phone and the desire to learn and be great. Make your own hours and make a good income without the bull and become part of something great. Don't be average and stand out of the crowd. Call or email us.
