I've created a short 24/7 Free recorded Message for you that will bring you up to speed in case you've been out of the loop.The number to call is show contact as soon as phone picks up dial extension # 123 . If what you hear makes sense, and leave me a message at the end of the recording, and I'll call you back. If it's not your thing, no harm done. It's free call anyway.

I have attached a local newspaper and resume on my learning (the story on newspaper that I participated was about an incident describing a computer issue involving a guy from India trying to SCAM a lady of her money and how I helped her out of having paranoia when using her computer.

My income also goes toward community outreach. Every time you see a crime in progress remember someone was not there to help the young man or woman to do better even-though it was their parents responsibility. We as a society need to encourage a different kind LOVE-one of hard work- so it's up to us small business or just anyone in general to create a difference in people.
