I left my dog at my ex's place while they were moving and when I came back from vacation to get him the dog was gone. My ex doesn't have him and apparently he was never at the house this weekend. I am frantic. Please, if you have any information please contact me. He is a silver brindle Cairn Terrier with black ears, he has a grey reflective collar with skulls and cross bones on it and his tag has his name and my contact info. He is very friendly. The bag of food I left was missing too. So someone may have actually taken him. Please, if you have any information, please contact me either through here or the info provided on his.
