

Wordpress Developer and Designer (Summerville)

Location

South Carolina

<https://www.genclassifieds.com/x-678078-z>

Currently in need of a Wordpress designer with the relevant experience in html, css coding as well as javascript. Must be familiar with coding existing sites or building sites from the ground up. Experience with bootstrap is a big plus. Also experience with designing front end is needed for this position. Please have an existing portfolio as we would need to take a look at some of your previous work to determine if you are the right fit for us. Client references would be very helpful in helping us to decide if you are the right fit. This position pays between \$2500-\$3000 per month. Bonus included after 3 month probation period. Get in touch:freelancegigs.work
