HOW DO THE LESSONS WORK?

You will be in the comfort of your home or office. I book lessons from 8am to 8pm Mon-Sun, 7 days a week, for your convenience. Yes, I take vacations and weekends off sometimes, but my accessibility it like no other. You log in to my site and your 1 on 1 lesson begins.

â€¢ The 1st lesson is usually 2 hours to get you started and set up. I teach one of my most amazing trade signals during this lesson that has approximately a 95% win rate. (In your homework you will be asked to go back in the charts and verify this amazing statistic for yourself. Don't take my word for it. In August it was 97%. Losses are few and very small with my stop loss regimen. No big stop losses in MRDVD'S program. I suggest homework after each lesson to enhance your skill at spotting signals and reducing your fear and to reinforce the training you have just received in that lesson.

â€¢ You schedule the next lesson when you want and I confirm. It is on your time frame. Take two days, a week, two weeks. Each lesson is approximately 1 hour and reinforces the prior lesson and teaches new trades, signals and indicators.

â€¢ Some finish the 7 hour course in two weeks. The norm is one to two months. Take your time to practice the points of each lesson. Everyone is anxious to start making money, but take your time to enhance your skills and knowledge. You have the rest of your life to use these money making signals. I give you practice homework to help you be a success from your first real money trade.

WHO IS MR DVD YOUR TEACHER? I am a retired professional math and physics teacher and business owner. I have a master's degree in Education, a major in Math, and a BS Degree in Mechanical Engineering. I believe I could say I have a "PHD" in TRADING from the Real Life University with my 40 YEARS OF EXPERIENCE TRADING FOREX, FUTURES, AND STOCKS. You see, I was a multimillionaire who made my money by building the largest chain of privately owned health care facilities over 20 years. I sold it, retired to Arizona, and lost it all in the real estate crash of 1987-1989.

I started learning how to trade when I had money to burn. I was reckless and stupid, but I won hundreds of thousands of dollars and lost hundreds of thousands. I HAVE MADE EVERY MISTAKE POSSIBLE, BUT I HAVE LEARNED FROM THEM, AND THAT WISDOM CAN SAVE YOU FROM DISASTER AND MAKE YOU SUCCESSFUL.

I have made \$300,000 in 45 days and lost it in 30. Fools and their money can be quickly parted.

YOU WILL BENEFIT FROM MY MILLION DOLLAR LEARNING EXPERIENCE FOR A PITTANCE OF WHAT ONE SEMINAR, ONE BAD TRADE, OR ONE CD SET CAN COST.

It does not matter if you want to start with \$500 in trading capital or \$50,000. I will help you and save you a lot of pain, anguish, and unnecessary losses as a beginner.

MOST BEGINNERS AND THOSE WITH NO TRAINING MAKE MANY STUPID PREVENTABLE MISTAKES THAT COST THEM FAR MORE THEN THE TOTAL INVESTMENT IN MY TRAINING.

WHY DO I TRAIN OTHERS FOR SO LITTLE COMPENSATION?

I love trading and I love teaching. It is my relaxation after the stress of my own trading. I LOVE IT! IT'S JUST THAT SIMPLE. IT IS MY LIFE. I think I was born to be a teacher!

Many ask me why I bother training when I could make money trading for myself? I do trade for myself, but money is not everything. I truly enjoy training and helping others to succeed.

My experience can keep you from losing money on trading systems that just don't work consistently, like one I evaluated the other day that was using stop losses far larger than the profit targets. Another one I evaluated about two months ago that made wild unbelievable claims had 13 losses in a row that wiped out over 90% of the account. Need I say they did not disclose that small fact!

Don't depend upon a canned system. Markets change, and "canned" systems stop working, if they ever did work. Nothing beats your knowing why you are taking a trade and why you are closing it. Don't risk your precious capital on robots and "canned systems" than do not know the current world news and the trends of the times. Human brainpower is very hard to beat.

I have studied directly under some who I feel are masters such as JAKE BERNSTEIN, JIM BOLINGER, GEORGE LANE, LARRY PESAVENTO, KEN WOODS, and many of the other academic pioneers of the markets. I have done many of the \$5000 and \$10,000 seminars often to find that what they taught did not work as well as advertised. I have bought the "GET" system which is still being sold or leased for thousands by a prominent broker. I lost a lot of money with its mutilple Elliot Wave counts etc.

OUT OF ALL OF MY DEFEATS I HAVE FOUND VICTORY AND SUCCESS BY COMBINING MY OWN RESEARCH AND STUDY WITH THE BEST OF WHAT I LEARNED FROM OTHERS. I WILL SHARE ALL OF THAT WISDOM AND KNOWLEDGE WITH YOU.

With one on one tutoring, you will learn more quickly at an amazing rate. ONE IDEA MAY IMPROVE YOUR TRADING TREMENDOUSLY. I HAVE DOZENS OF NEW UNIQUE IDEAS THAT MIGHT HELP YOU.

I have taught professional traders, brokers, as well as beginners who thought candles were for lighting. My vast experience can keep you from falling into situations that cause traders to lose their capital and get discouraged. When they give up they can never recoup their losses. Is it not better to get the training that will help you to avoid this scenario and win more safely?

Let me save you a lot of learning time, give and teach you the best indicators, reveal the most reliable signals and trades that make money time after time, and teach you how to trade safely and wisely.

Your results can beat all of Wall Street's results many fold. We don't become traders to make the 5% or 10% a year that the fund's average annually. As traders we strive to make that and more every week and month. Traders can make money in declining markets, bear markets, choppy markets, and of course in bull markets.

Some falsely believe traders have to sit all day in front of their computers. Most good traders only trade a few hours a day. They make their money and go live and enjoy their life. Trading can free your time to be able to live life and enjoy it more. Isn't that what you want?

If you are a stock or option investor, you will love my stock training. I have developed unique methods for

evaluating which stocks to trade, when to buy, when to short, etc. I even invented my own "DVD STOCK MOVEMENT INDEX" which can increase your stock investment or trading profits. GIVE ME A BEAR MARKET. GIVE ME A BULL MARKET. I DON'T CARE. My stock strategies were totally developed by me over many years and are taught by no one else. I have been able to help profitable experienced traders greatly improve their results. I can analyze your trades and suggest better entries, exits, signals, strategies, and indicators which will increase your profits. I can show you how to place more effective stop losses (I wrote a book on stop loss strategies).

You can also use what you will learn in my course to help you with your choices in your 401K or IRA plans. When you learn how to find the charts of your funds and understand them, you will better understand which funds to exit and which to buy. It is sad that so many have their life savings invested in these funds and do not even know how to read the quarterly statements, let alone analyze the investment therein.

WHEN YOU LEARN HOW TO ANALYSE YOUR INVESTMENTS BY READING THE CHARTS AND APPLYING THE RIGHT INDICATORS, YOUR FUND WILL DO SO MUCH BETTER MANAGED BY YOU INSTEAD OF SOME STRANGER.

I am amazed when I find that most people do not monitor their portfolio investments. Even my college educated kids depend upon me as they have not bothered to learn from their dad. (Why learn? Let dad do it for me!)

Your SATISFACTION IS GUARANTEED. IF YOU ARE NOT HAPPY AFTER THE FIRST HOUR, I WILL REFUND THE BALANCE OF YOUR PAYMENT AND WE PART FRIENDS. No refunds thereafter.

I do group discounts or public speaking engagements. I am not licensed; I am not a broker; I am not affiliated with any investment brokerage or group; and I do not manage funds. My service is educational only. There is always a risk to trading and no one should trade with money they can not afford to lose. I am not selling anything but my tutorial services. I do not sell DVD's. Those are my initials!
