I'm looking for all walks of life (old folks, young ones, big and small, guys and gals!) to be featured in my short video.

I'll ask you questions about personal struggles, life experiences, how you grew as a person, your favorite/least favorite thing about yourself, and something that goes unnoticed in your life.

No name will be given in the video and the video is purely for informative purposes. I'm not associated with any company, just looking to feature other people with novice camera skills.

Plan to film at a mutual, public location.

Thank you and recommend a!
