

2005 Harley Davidson Softail Springer Classic

Location **Delaware**
<https://www.genclassifieds.com/x-678528-z>

This is an excellent condition and great looking 2005 Harley Davidson Softail Springer Classic motorcycle. This Virginia bike shows and rides beautifully and only has 11,200 carefully ridden miles. It is loaded with an impressive array of factory and add-on features with an old school look.

This machine features awesome looking OEM saddlebags, detachable windshield with two pouch bags and passenger back rest with luggage rack. The bike is ready for long distance riding in comfort.

This bike looks like it is from the 1940's with its styling and subdued black pearl paint scheme (like dark charcoal grey base) complimented by the black springer frame. At dusk, with the lights on, it looks like a menacing ghost eerily breaking through the night. With the sun shining, the paint takes on a totally different tone when it shows its red, green, blue, gold and silver paint chip infused sparkle. In addition to the classic springer front end, the bike includes the fork mounted springer style horn and passing lamp kit, rear fender bib, leather console pouch and profile laced wheels.

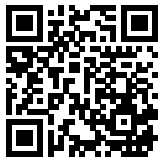

The bike includes chrome handle bar housings with chrome switches, chrome brake reservoir, chrome clutch and brake lever brackets and chrome clutch and brake levers. The shifter pegs, highway and passenger pegs have all been upgraded to Harley's Crested Bar and Shield pegs. This machine includes an engine guard, chrome frame inserts and custom soft handle bar grips, chrome bolt caps and chrome axle and swing arm covers.

This bike features a great running, carbureted 88 cubic inch motor with classic looking Harley Davidson
first class exhaust. All the controls work great and the bike rides smooth. The paint is nice and
the tires are in good shape. The bike is in good shape and is a great bike to ride. The bike is in good
shape and is a great bike to ride. The bike is in good shape and is a great bike to ride.

This bike handles wonderfully and the springer front end is cool to watch as you transition through uneven pavement. The bike also includes a number of additional chrome upgrades throughout that further accentuate its beauty. (please see the pictures for more detail).

I have clear title. Please give me a call with any questions.
