Experienced dog sitter, specializing in small and large breeds and dogs with special needs will care for your pet like my own.

I am a responsible and mature professional, working from my laptop, teaching online courses and providing dog sitting and walking services.

I live in a pet friendly (cage free) house, walking distance to downtown and steps away from the coastal trail, but don't have a dog, so short-term or long-term over-nights are welcome. I can also visit your pet at your house. If you need someone to walk and care for your dog during the workday -- it is \$12/hour.

Your pup will be loved and snuggled and cared for and you will come to calm and contented dog! If interested, please email for more information, references and to set up your meet-and!
