"He defended that great Issue with "Democracy" that which is Basic Mob Rule "

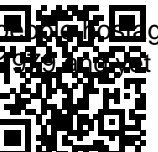

False. Nearly every democracy in the world is representative, including the parliamentary democracy in Egypt. The people elect their representatives in democratic elections. Can you name one single country that has only direct democracy? Of course not.

"and we saw it so very well in Egypt where they were Killing many with the "Blessing of Government" simply because they were not the correct Religion!"

What are you talking about? The government and the military that took over in Egypt was doing nearly all the killing. The vicious murderers killing civilians because of religion here are all right-wing conservative extremists, too.

"So that is why the Muslims killed the Israeli Athletes at the 1972 Olympics: - just what did they have to do with that "GOP Invasion and Occupation."

Newsflash: Israel is not America. What does terrorism against Israelis have to do with anti-Americanism?

further... why the... 52... for... back in... use of... seems... the... President... Carter... Congress... controlled by... Democrats in... that... that... of the... Party... have... liberal... to... Democrat... others!"

Right-wing conservative GOP President Dwight Eisenhower used the CIA to stage a coup in Iran to overthrow a democratically elected Prime Minister in 1953. The Iranian had a good reason to be anti-American after that.

Everything you think you know turns out to be wrong because you never really learned anything.
