I'm a 17 year old Singer/Rapper who Produces his own music as well. But I still feel something is missing. Really feel as I have what it takes to REALLY Change the game and bring something thats never been brought before. I want a Drake & 40 relationship. Need someone who I can really sit down with and discuss ideas and come up with a sound together. (No homo) We have to have a close relationship and really be open to create. We have to talk on the regular. I'm looking for a Producer, but also a friend. If your not ready to put the time and effort to create PLEASE DON'T CONTACT ME. I'm looking to get signed. If that is not your intentions, please move along. I know I can make it big, just want to surround myself with people with the same way of viewing this Music stuff as me. Its a job and a commitment. I want to make music for the rest of my life and If you feel the same, I highly advise you to contact me.
