are you confused? tired of not being able to say how you really feel without being judged? do you have questions that need answering? do you wish you can talk to someone without being in an office setting? well look no further. my name is Professor X or as my clients call me Px. I have been helping people for the last 15 years with the kind of problems they have been uncomfortable to speak to anyone else about. Because of the things I've been through, seen and done, I have been able to help those in need from understanding drug addiction sexual addiction marital infidelity etc.. to suicidal thoughts and everything in between. Although I am not a Dr. I have a very unique way of looking at life which has helped me to understand and help people. If your looking for answers or just someone to talk to, email ur name and a little bit about yourself and we can go from there. Because of how discreet my sessions are you will not find me online or social medias advertising all of my clients have been through word of mouth. I am only even advertising here because my clients have been asking me to start an informal group and I am interested in seeing if I should or should I stay personal. Please please please don't hesitate to contact me. you will find that my rates are very fair and the confidentiality along with the knowledge and guidance is!!
