This apartment has a new designer tile floor in addition to the new mahogany kitchen cabinets that lead to the bedroom (see photo), the new washer/dryer top, and the kitchen area is fully updated with a large refrigerator, microwave, and oven. It also features a new in-house heating and a Bose home theater system. It also has a large flat screen TV in the living room and there is a bedroom TV with Netflix installed.

Save time style tile is used throughout, so everything feels clean. And another very nice upgrade is the very large, custom built 2 person shower.

Cool trade winds blow through this unit-- or you can use the quiet built-in air conditioning system. And you will very much like the free washer/dryer located in the hallway and not down the hall, which is what
