DUTCHESS
91 lbs female
45- 50 Lbs
Adorable DUTCHESS has more than earned her refined name, this darling girl really is poppy royalty. So intelligent and affectionate, Dutchess has an exceptionally loyal personality and her owner's wish is, her command and she's happy to show off all her best tricks - sitting on command, shaking a paw and even giving hugs and kisses on demand. A polite girl who walks calmly on leash, Dutchess greets other dogs with a happy tail. She's thrilled to play with a tennis ball but never keeps it for long and bring back with no

guarding issues at all. Dutchess is simply a beautiful, playful, wonderful little doll who needs a loving home with a lot of exercise. Dutchess is about 2 years year old, only 45-50 lbs, spayed, microchipped and up to date on shots.

Dutchess is energetic, dog friendly, curious with cats she sees on her walks. She walks nicely on leash, knows her basic commands. we recommend a home with teenagers.
