Welcome!

Learning to play the piano should be fun. My piano lessons are structured specifically to meet each student's need, according to their musical interests.

In these lessons you will learn:

Proper posture and playing technique to avoid injury  
How to read and interpret a sheet of music  
Chords, and how they function in the different scales  
How to play songs from a recording by ear  
How to understand the unique elements that separate genres and styles

Most importantly I take the lessons to you, right in the comfort of your home, or to a place of your preference and convenience.

Whether you are interested in learning; pop, gospel, jazz, rock, funk, classical or just some old traditional hymns, I can help you to achieve your goals. It doesn't matter if you are touching the piano for the first time, or already have a couple of years of experience, I can show you how to get to the next level of your musical journey.
