Hello, I'm a music teacher in Raleigh and nearby. Looking to add more music students to my schedule. I teach: guitar, piano, bass, and beginner drums. I teach; chords, scales, theory, improvisation, song analysis, ear training, modes, sight reading, and much more !! I have almost 20 years of teaching experience and I attended Wake Tech Community College for 3 years for music classes in theory and music history. I also play live acoustic music for events such as weddings, parties, barbecues, shows, receptions, etc. I also do handyman work and landscaping work as a second job. Call or text me for fastest response and more info about doing a first trial lesson,!!
