Starting a new project, looking to fill spots for bass, drums and lead guitar - keyboard player would be a bonus. If you can sing back-up vocals that's a big plus too. Songs include a mix of 80's, new country, a few old ones, and a few top 40 songs. I have a jam space here at my house in Durham but open to other spots if necessary. Our goal is to play out 1-twice a month, have fun, and make a little money while we're at it. No big egos please. reply to this ad or text me at seven 1 two - one five 3 four. My name is.
