Graphite Grey Pearl on Black leather

I don't want to part ways with the vehicle, but I am willing to entertain serious offers. Car runs and drives very well, no real issues. I have previously owned a manual is300 and was skeptical at first, but this has proven to be very pleasurable. No lag, faster in a straight line, but it has steering mount shifters to select gears if you so choose. Running basemap tune of 8psi, putting down around 325whp (turbo setup is good for 500+whp). Full SRT turbo kit (\$7k MSRP) plus transmission mods. One of the only kits on the market that can still pass emissions. Vehicles is also equipped with coilovers, and SRT sprag/valve body upgrade.

Has a/c, heat, power steering, etc. Exterior is in fairly good shape for it's age. There are some dings and dents, to be expected with a 14+ year old vehicle. Interior is in pretty good shape, seats are clean. Has an

aftermarket alarm as well as a double DIN head unit. Suspension feels good, fender liners sometimes rub on the frame. Big tires are 25's. Windows are tinted. Car starts with ease. There are a few things to the car, but overall it's a great car. I'm looking for a buyer who is a fan of the car. I plan on upgrading the engine and doing a few more things. Check out the current listing for more info. Check out the current listing for more info.
