I have 3 ATV's that I need to sell to complete a project. All run and drive, all have reverse, all could use some minor TLC.

2005 Honda 250, runs and drives good, electric start. Has cracked plastic, needs muffler shroud and airbox. Has some smoke when ran hard.

1998 Suzuki 250, runs and drives good, kick start. Minor cracks in plastics and minor tears in seat. Starting to leak a little oil.

1987 Honda 125, runs and drives good. Body rough, rear tires need tubes. The seat needs recovered, I have the vinyl to go with it. I have new battery filled and charged but not installed yet. Pull starts on first try every time.

Easily 4000 in atvs with a little work, I just need the cash to complete a project.
\$1800 cash or best offer. Please don't totally low ball me though, this is about what I have into them.
Thanks for.
