---over \$500 less than KBB private party blue book value with over \$5000 in goodies---thousands less than the dealerships price--- Perfect truck for a contractor --- I am starting another business, so no need for a truck, time to sell my baby. She has been very well maintained and she is super clean inside and out. Truck is still covered under factory drivetrain warranty for 7 months with optional extended warranty available. This is a working mans truck. Fully loaded with over \$5000 in goodies on her and Im selling her for over \$500 under blue book value. Clean car fax. Truck has 310HP 4.7L V8 with 5 speed automatic transmission and 4x4 - quad cab - custom dual exhaust system with 4" black tips "sounds great" and upgraded Hemi dual exhaust paint matched rear bumper - HID headlights - smoked tail lights - debadged for a clean look - 20% tint - 20" black steel rims with brand new BFG All Terrain tires - Neoprene camo seat covers "cost over \$550 alone" - Custom grill - in dash diagnostic screen that tells you everything about the truck - satellite radio - power sliding rear window - tow package with class 3 hitch - bed liner - all aluminum System One ladder rack with (4) built in ratcheting straps and (2) aluminum diamond plate locking side tool boxes and aluminum surf fishing rod holder - This truck is perfect for a contractor or just somebody who wants a truck that can do it all. Truck is super clean inside and out with exception of one small minor ding on drivers door "as seen in pic" very minor. Tastefully modified truck that gets a lot of compliments. I drove this truck across the country 2 years ago to California and back and averaged 21 mpg. She has never given me a single issue. Price is \$21,000 FIRM "just below blue book value". This is newer truck still under factory warranty so most banks will finance you. Price is absolutely firm so please do not waste my time or yours with any other offers. Emails only to prevent impulsive callers. If you dont have \$21,000 cash, than you will need to find a bank to finance you. This is a newer truck still covered

under factory warranty so if you have good enough credit with income on the books, you shouldnt have a problem finding a bank to finance the new truck. I hold the truck very well and it is in other really good shape. I love to drive it.
