Features of the PetSafe Pawz Away Outdoor Pet Barrier  
 - Adjustable coverage: The adjustable transmitter can protect an area up to 16 feet in diameter.  
 - Wireless mode: Place the transmitter in the yard, and the dog will be warned.  
 - Wired mode: Create a custom-shaped off-limits zone of up to 150 feet with wire (sold separately).  
 - Outdoor barrier transmitter: Designed to look like a rock to blend into your landscaping.  
 - Circular signal: Provides protection for areas you want to make off limits to your pet.  
 - Transmitter tested to withstand temperatures ranging from -150 to 200°F (-165 to 212°F).  
 - Works with PetSafe UltraSmart in-ground fence systems and PetSafe Pawz Away barriers.

~çâ,¬~çYardMax®,® Rechargeable In-Ground Fence (PIG00-11115)

Description:

The Barrier Transmitter, disguised as a rock in your landscape, sends a circular radio signal to your pet's Receiver Collar. When your pet enters the Barrier Area, he'll hear audible tones from the Receiver Collar followed by a safe, progressive Static Correction. The correction is delivered through the Contact Points of the collar that touch his neck. He'll quickly associate the correction with the area you've declared off-limits
