

jons auto solutions (del city)

Location **Oklahoma**
<https://www.genclassifieds.com/x-679244-z>

hello my name is Jon i have recently opened my own automotive repair shop where i do preventive maintenance and light repair work.
 please understand that i will not cut corners on my work nor do i "rig" things for short term solutions. I do things the right way , the first time so you dont have to get it done again. so with that being said i also stand behind my work 100%, and if human error does happen to occur on my end and the job needs to be adjusted or fixed i will take care of my errors free of charge. I also do late night and overnight emergency repairs and roadside assistance; lockouts, gas, change flats ect.
 please contact
 Jon hall

and if you are going to text or leave a vm please include what you need done and the year, make, model and engine of your.
