

This listing is for 1 (One) Natal Chart Reading (with a personalized video, as well). This reading will be based on the information that you provide, and the entire interpretation will be personalized just for you. Typically, my chart interpretations run about 7-10 pages long. I will also answer 2-3 specific questions you may have based on my reading

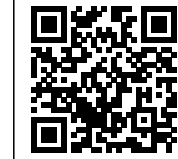

What is a natal chart? A natal chart is a map of where planets (and fixed stars) in our solar system were the exact moment you were born, in relation to the exact location of your birth. Your natal chart is unique to YOU. Natal charts dissect areas of human life, and can help you gain new perspective into your personal life, strengths, weaknesses, karmic hangups, etc. Your chart can be used as a tool to know yourself better and break free from recurring patterns in your life.

I also provide scenario/situation specific readings based on natal charts (i.e., love, career, financial, etc). Please visit my store to see what else I offer.

What I need to accurately interpret your chart:

1. Date of Birth
2. Exact Time of Birth
3. Location of Birth

Please note--if you do not have your exact birth time, please do not guess as timing makes a big difference. You have two options -- 1. I can use Noon as your birth time (this is standard in astrology, however, your reading may not be accurate) 2. I can provide you with a "no-birth time" chart with Planet/Sign/Aspect interpretations only. (I will also work with you to rectify your birth time if you'd like. Please note that a rectification will add a considerable amount of time to completing your chart)

Reading (Portland)

3. Up to 3 Chart Questions answered (~ 30 min back and forth via email or skype)

Charts take about 8-10 hours to complete, and I have several at a time...so please allow up to 3 business days for receipt. I start to get back up, this timing will change (and be updated here).

Thank you again for taking the time to check out my shop--Have a great day!
