Testimonies

"As an experienced real estate broker and investor, I have worked with numerous other lending sources, however WPI proved to be one of the best and fastest. I contacted them with only a little over a week to close on an REO Rehab Project and they got it done in record time. I encourage others who are looking for an outstanding experience, to do the same. "I never work with this company before and I was really worried to start doing business with the lender out of state. It was hard for me to trust and go on, but after I finished the first loan I felt good and had lots of trust to them . I will use them again and I will hardly recommend them to the people who wants to get a loan. This is the best lender after bank that I ever found." M.
