Con Classifieds.com Lost Ring Finder Metal Detecting Specialist (Central Vt and distant locations)

Location Vermont https://www.genclassifieds.com/x-679560-z

Lost Ring Finder / Metal Detecting Specialist Member of TheRingFinders organization

No fees charged, voluntary rewards only Willing to travel (with fuel reimbursement on long distances)

Searches include: Recently lost or long lost jewelry, hearing aids, property markers, other important objects made of metal. It's very important to search immediately after losing it, before someone else finds it. On the other hand, if your mother, father or grandmother lost one years ago while working in the back yard, we can probably still find it, and it will be in great condition if it was gold or silver.

You can call me (click on "reply" for my phone number) or see the Vermont listing in TheRingFinders website for more information. If you want to read some of my success stories, go into my blog postings at that website. These pictures are of some of the rings I have found for people since recently joining the organization.
