

# Need a web designerdeveloper

Location **Arizona**  
<https://www.genclassifieds.com/x-679702-z>

Good day,

I just selected a defaulted WordPress template for my blog, I don't know much about programming. I'm looking for someone to redesign my Wordpress Blog asap that knows how to program in PHP. Please send me your resume with a portfolio of your work and your commission rate. Cost is not a problem as long as it is user-friendly and mobile-friendly and can be finished within a week. I already have some templates in my that I created in photoshop.

My blog is randommove.com

Thank.
