I have a Cadillac Escalade in need of Transmission Repairs. I do not need a new transmission only a part replaced. I am looking for someone who will do the job (fix what is needed) without trying to Scam me. Most shops will say we have to replace everything to stand behind the work. I just want the problem fixed not a \$2000 bill. If you can diagnose, have a track record of taking care of your customers and are truly and expert send me a message. I am ready to get the work done.
