2003 Chevy Impala with under 100k! Needs some light front end work (dents in fenders, hood and cracked bumper cover) and a windshield. Runs and drives excellent, family owned since new. Appears to only really needs a windshield to be road worthy and new tires were recently put on. This is a great winter vehicle or for someone not looking to spend a lot of money and willing to do some minor body repair to get it looking new again. Call or Text Tony @

Hurry, at this price it's sure not to last!
