

## Wanted Satellite installer (Southgate)

Location **Michigan**  
<https://www.genclassifieds.com/x-679952-z>

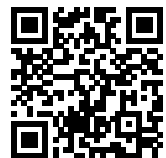

I am in need of someone to set up and align a Directv dish. Where I used to live, I knew a guy that would install stuff like this for me and my friends.

I have all of the equipment necessary to do so. However, I may not be able to have it at my apartment because there is a tree in the distance in the direction it needs to point, so it may be a quick visit. I can't tell if the dish will or will not be pointing over the tree.

Anyway, if you have experience doing this, contact me and we can figure out a.
