Professional Private Russian Tutor with a Moscow teaching qualification offers: PRIVATE RUSSIAN LESSONS.
Learn or improve your Russian with a native speaker, very clear and easy to understand.

My lessons are included conversational Russian as well as pronunciation, grammar, reading and writing, business language and Russian literature.
Classes are fun, friendly and relaxed, but with quality content, which I believe is the best combination for learning.

I also offer Russian private lessons for your children. Wide use of materials, games, flash cards, stickers, crosswords and other extra activities which make the lesson for your child interesting and enthusiastic.

I create lessons to meet your specific needs. I provide a free 30 minute assessment, in which we discuss your goals, my teaching methods etc.
It allows me to develop a customized lesson plan for you, and helps you to make an informed choice about your future teacher.

Get quality tutoring without a huge price tag. Each one hour Lesson is \$30.

For more information, feel free to visit my blog at letsspeakrussian.com
My lessons are online unless my students are local. I live in CO.
