Perfectly Posh has creative pampering products made with the best ingredients on earth. They are naturally based, cruelty free and made in the USA. All of their items are under \$25 and are buy 5, get the 6th free. Posh is booming right now, we just hit 30k consultants and it's an awesome time to join. I'm looking for 2-3 CUA students to join my team (I'm an alumni). College students need pampering! You start out at 20% comission, and can quickly move to 25% (I did in my first month).

You can host parties, sell online, Posh lets you run your business how you want to. There is daily online training to get you started and you can earn business supplies and free product in your first 30, 60 and 90 days.

You have a choice of two kits...own your own business for \$99. If you qualify in your first month (\$200 in sales) you will also earn a free product from me!

Please check out my site and feel free to ask any questions.
