Web personality needs videographer to cover two-day small seminar (20-30 people).

Seminar will be interactive and so you will need to capture B-roll in addition to the more traditional shots of me actually teaching. You'll need to have your own camera and lighting. We will be inside in a hotel meeting room for most of the time so whatever equipment you need you will need to bring.

The gig includes filming as well as editing and uploading the final footage to the cloud. You will also need to create a basic bumper for the beginning and any other graphics to make the edits make logical sense.

Please respond with:

- (1) whether you have the equipment and are free for the entire time period on October 7th and 9th .
- (2) description of what you like most about capturing this kind of footage - and experience with post.
- (3) pay required
- (4) any links to your work to let me see how epic your stuff is!

Professional and polished is good, off the wall and ultra creative is even better!

If you want to make cash in the most CHILL OUT manner doing what you LOVE (which is capturing FUN) - then respond to this and tell me WHY (including the 4 things above) this should be YOU doing this!

THE DATES ARE WEDNESDAY AND FRIDAY October 7th and 9th from 8am to.
